

ANURAG ANAND

Software Development Engineer | Cloud-Native Systems & Security

anuragpandey.aryan@gmail.com | [LinkedIn](#) | +91 9625150235 | [Portfolio](#) | [GitHub](#)

Summary

A versatile Software Engineer who builds secure, scalable, and intelligent systems. Adept at full-stack development (**Java, React, Python**) and architecting complex solutions, from AI workflows to decentralized applications. Skilled in modern **cloud-native application development**, with a deep focus on container technologies (**Docker, Kubernetes**) and system security to deliver reliable and performance-driven results in cloud and enterprise environments.

Experience

- **Care Insurance** Gurugram, Haryana, India
Intern 06/2024 – 07/2024
 - Designed, implemented, tested, and deployed **5+ major features** for a fitness application with **10,000+ potential users**.
 - Applied software engineering best practices to ensure high performance, durability, and security in an offline-first architecture.
 - Contributed over **2,000 lines of code** in Java, React, and Firebase while collaborating closely with the team to solve business problems.
- **Club Sierra, BML Munjal University** Gurgaon, India
Design Lead 01/2023 – Present
 - Led a team of **5 designers** on **10+ projects** for university events, ensuring high-quality outcomes under strict deadlines.
 - Collaborated with multiple stakeholders to implement efficient workflows, enhancing service performance and project delivery.

Projects

- **Cloud-Native Microservices Deployment (IBM/Coursera)** | *Docker, Kubernetes, OpenShift, Serverless, Node.js, Python*
 - Containerized a multi-tier guestbook application using **Docker** and deployed with **Kubernetes/OpenShift**.
 - Developed multiple **microservices** and deployed them on **serverless cloud infrastructure** for scalable cloud-native performance.
 - Implemented rolling updates, horizontal scaling, and seamless integration of services for a production-ready application.
- **SECUREFIT: AI-Powered Fitness Application** | *Java, React, Firebase, Gemini AI Workflow*
 - Built a secure full-stack architecture with authentication and **AES-based encryption**.
 - Integrated an **AI dashboard** providing personalized fitness insights based on 5+ user metrics.
 - Designed for the maximum free-tier Firebase limit, supporting **10,000+ concurrent users**.
- **Decentralized Secure Messaging Platform** | *Blockchain, Cryptography, PoW, Python*
 - Designed a tamper-resistant messaging platform using **SHA-512 encryption** and **Proof-of-Work consensus**.
 - Achieved block creation within **10 seconds per block** ensuring fast and secure communication.
- **Independent Security Audit: Helios E-Voting Platform** | *Python, Django, PostgreSQL, Burp Suite*
 - Deployed legacy Python web app by resolving **15+ critical dependency conflicts**.
 - Authored a detailed security audit and threat model, identifying **15+ potential attack vectors**.

Education

-
- **BML Munjal University** Gurgaon, Haryana
B.Tech in Computer Science and Engineering 08/2022 – 05/2026
 - **Mishra's Residential Public School** Deoghar, Jharkhand
Higher Secondary Education (CBSE) 04/2019 – 05/2021

Technical Skills

-
- **Programming:** C, C++, Java, Python, JavaScript, SQL (PostgreSQL, MySQL, MongoDB), HTML, CSS
 - **Cloud & Systems:** Docker, Kubernetes, OpenShift, Microservices, Serverless, Firebase, Node.js, Linux, Bash
 - **Frameworks & Libraries:** React, Flask, LangChain
 - **Security & DevOps:** VAPT, Cloud Security, Cryptography (AES, SHA-512), Authentication & Access Control, OWASP Top 10, Git, GitHub, Burp Suite, Nmap
 - **AI & ML:** Gemini AI, ML Integration

Achievements

-
- **Scholarship:** Awarded **75% merit-based scholarship** on tuition fees at BML Munjal University based on academic performance and interview.
 - **Achievement:** Proposed a secure fitness app for insurance platforms, recognized by Care Insurance seniors for innovative thinking.
 - Helped a **local NGO go digital** for a personal project **LinkRow**, a platform enabling small businesses to **establish an online presence**, expanding their reach to new customers and **improving visibility**.

Certifications [Coursera profile](#)

-
- **Google Cybersecurity Specialization** — Coursera
 - **Introduction to Containers w/ Docker, Kubernetes & OpenShift** — IBM
 - **Application Development using Microservices and Serverless** — IBM
 - **Security and Authentication** — Microsoft
 - **AI for Everyone** — DeepLearning.AI
 - **Number Theory and Cryptography** — UCSD
 - **IoT Cloud Services** — UCSD
